

Art Appreciation Lecture Series 2020
Love, sex and death: The constant companions of art
"Between apocalypse and redemption: German modernism 1903-1933"
Andrew McNamara
11 and 12 March 2020

Lecture summary:

The lecture covers a significant period of German modernism. Rather treating apocalypse and redemption as oppositional terms, this lecture demonstrates that both impulses were often active side by side in art of this period.
